PROFESSIONAL SUMMARY

Driven **Electrical Engineering Student** with hands-on experience in embedded systems, power electronics, and circuit design. Proven background in developing hardware from breadboard prototypes to custom PCB layouts, incorporating PID control loops, IoT networks, and solar MPPT algorithms. Seeking an **Embedded Systems or Power Electronics Internship** to apply technical skills to real-world engineering challenges.

EDUCATION

Diploma in Electrical Engineering

Graduated 2026

Govt Polytechnic College, Jammu

- Core Focus: Electrical Machines, Circuit Design, Power Fundamentals.

Secondary School Education (10th Grade)

Bal Bharti Public High School, Jammu

CERTIFICATIONS & TRAINING

Grid Station Internship

4-Week Program

Gladni Grid Station, Narwal

- Hands-on exposure to substation operations, switchgear, transformers, and grid protection systems.

Solar Power Technologies Training

4-Week Program

Certified Training Program

- Comprehensive training in solar PV system design, panel sizing, charge controllers, and inverter setups.
